The New Leader

Business Challenge

The leap from individual contributor to leader is one of the greatest steps an employee will ever make. The new leader is given increased and more complex responsibilities, while having to manage and lead others for the first time. The new leader must think and act more strategically than ever before. And expectations about performance increases significantly, as the company expects and requires a quick learning curve.

Who Will Benefit

The New Leader is designed specifically for first-time Leaders, Leaders with technical or staff backgrounds, and Senior Leaders who would benefit from a formal leadership development experience. It is ideally suited for organizations seeking to expand the capabilities of their new leaders through a practical, direct, and rigorous process.

The Focus

For many new leaders, the needed skills and capabilities required to succeed in the new role are foreign to them. The successes and accomplishments that earned them the promotion, no longer matter to the same extent.

Furthermore, while most new leaders realize they need to *add* new skills, many don't realize they must *drop* some as well.

By building the skills & capability for leading others more strategically, The Advisory Alliance's **The New Leader** program provides the new executive with the perspective and ability for leading others more confidently and effectively.

Key Content
